

PEP services from HRM Systems

We offer you targeted support, ranging from the provision of PEP work resources to conceptualisation and provision of ongoing supervision for projects involving setting up complete PEP systems from scratch. Our consulting team is made up of former PEP application managers with proven, long-standing experience with various healthcare companies. We would be happy to give you holistic support, both during this process and in making the best use of your human resources.

Thanks to our close cooperation with Urs Heer GmbH, we can further complement our know-how. This allows us to offer customised services which are completely tailored to your needs.

Thanks to our holistic approach to attendance and absences, the process and use of human resources for companies working in the healthcare and social services sectors can be redefined.

Legally compliant and uniform procedure for logging attendance and absences, giving due consideration to all stakeholder groups.

Conceptualisation and implementation of an optimised and cost-effective system environment.

Standardisation and automation of company-specific procedures and processes.

Interdisciplinary advice on staff rostering.

Systematic analysis and customised solutions based on practical and long-standing experience.
