

From person to person

Carema supports the process around employee care. Together with UKA Solutions, Carema provides the optimal system-based foundation for a professional corporate health management.

Comprehensive features for absence and care management

- Detection of frequent (short) absences and long-term cases
- Automatic transmission of pending discussion points to line managers
- Administration of long-term cases (case management) as well as social counselling cases
- Cross-department collaboration through a role-based permission concept
- Individual configuration of company-specific meeting documents
- Workflows for managing meeting processes to ensure structured processing

Security and performance

- Browser-based software-as-a-service solution
- Company certified according to ISO 9001, ISO/IEC 27001 and ISO/IEC 27701
- Operation of the software in a dedicated environment in Switzerland
- Data centres and backups are ISO 9001 and ISO/IEC 27001 certified and are fully operated in Switzerland
- Accesses are protected by firewall and SSL encryption

Benefits for the company and the employees

- Reduced absence rates, costs and employee turnover
- Increased employee satisfaction thanks to needs-based measures
- More targeted support through timely identification of warning signs

Foundation for a professional health management
